

Certificate

Faiza Ghous Ghous Bux
from
National Disaster Management Authority , Pakistan

participated at the **Numerical Model Training Course 2024**. The Numerical Model Training Course 2024 took place at the DWD headquarters in Offenbach am Main from 10 June 2024 until 14 June 2024.

The Numerical Model Training Course 2024 included lectures on

- ICON Model Overview and Getting Started with ICON,
- Dynamics & Tracer Advection,
- Atmospheric Physics (Microphysics, Clouds & Convection, Radiation, SSO & Gravity Wave Drag, Turbulent Transfer, Turbulent Diffusion, Lake & Sea Ice, Soil)
- Nesting & ICON-LAM,
- External Parameters,
- Aerosols and Reactive Trace gases – ART.

Faiza Ghous Ghous Bux participated in practical exercises (**CLM - Climate limited-area mode**) on

- Installation of SPICE and running standard experiments
- Preparation of grid and external parameter files for a domain
- Running ICON-CLM for new time period
- Running ICON-CLM for new model domain
- Running ICON-CLM with data from a CMIP6-GCM as boundary conditions
- Running a high-resolution simulation with a 12 km ICON-CLM simulation as boundary conditions
- Sensitivity study with evaluation (eva-suite)
- ICON Community Interface ComIn

Offenbach, Germany, July 2, 2024
